One of the main duties was tender assessment according to the company's profile and yearly acquisition schedule. Also I had to handle the list of necessary documents for each bid, prepare and request them accordingly to the bid conditions. Under my supervision was the custom clearance processes of the imported merchandise, as well as insuring the timely and proper delivery of goods to clients. In addition, I had to supervise the proper execution of each contract with the company.

My biggest achievement is the fact that I helped grow and develop the supplier base, as well as the clients base. Also, I systematized the import and delivery of the ordered goods.
