Node.js Developer

About me

I am a backend developer with 1.5 to 2 years of experience working in Node.js, NestJS framework, where I have developed scalable solutions using microservices architecture, SQL databases, and SOLID principles. I recently completed my Bachelor's in Computer Science and am currently pursuing a Master's degree in Information and Communication Technologies. With a solid foundation in backend technologies like PostgreSQL, Docker, and CI/CD pipelines, I'm eager to apply my skills and continue learning in a professional setting.

Currently, I am looking for new opportunities where I can contribute my problem-solving abilities and passion for backend development, whether it's through a full-time role or an internship.

Desired industry

- IT, Tech

Education: Higher

Moldova State University
Graduated in: 2023
Faculty: Mathematic and Informatics
Speciality: Informatics

- Solid Principles
- Docker
- SQL

Driving licence
Category: B
